Referral Questions .....	p. Back Cover

## What is the Digital Assessment Library (DAL) for K-12?

It's pretty simple. The **Digital Assessment Library for K-12** is an annual site license that provides the entire district access to a library of more than 40 assessments used by school psychologists, speech language pathologists, education diagnosticians, special education teachers, occupational therapists, physical therapists and more. For a fixed, annual price—based on the number of students enrolled in your district—your district can have a license to access and use Pearson's K-12 Digital Assessment Library (DAL). There's never been a better time to take advantage of these easy-to-use systems to administer, score, and report/store assessment data. Designed to support student equity and evaluations in the district, whether you're testing for eligibility or progress monitoring.

---

## What does “unlimited” get your district?

Unlimited use allows your district to answer all of your referral questions, with whatever tests you need, **as many times** as you need to, using **as many examiners** as you need to do it — **all for the same simple price.**

### **Unlimited use, one annual price:**

- Use whichever assessments you need—whenever you need them—from an ever-growing digital library of over 40 of our most popular assessments
- Unlimited access and use of Q-interactive®
- Unlimited access and use of Q-global®

# This all sounds great “on paper”, but what are the real-world benefits?

Time is perhaps the most precious commodity these days, and we completely understand that making any big changes to how your district does things needs to be justified by some major benefits for everyone involved. The Digital Assessment Library for Canadian Schools came to be for this very reason. We listened to your needs and found a way to solve as many of them as we could.

## **Students in DAL districts are enjoying the benefits of:**

- ✓ Higher engagement during evaluations
- ✓ Ability to reach every student who needs support
- ✓ More accurate evaluations, appropriate interventions, and *improved outcomes*

---

## **Examiners in DAL districts are enjoying the benefits of:**

- ✓ Measurable time savings
- ✓ 24-hour access to the materials they need
- ✓ Greater test flexibility
- ✓ Less back pain carting testing materials from place to place
- ✓ More space in their car

---

## **Administrators in DAL districts are enjoying the benefits of:**

- ✓ Greater staff productivity
- ✓ Reduced shipping costs
- ✓ Less waste and improved inventory management
- ✓ Predictable costs and more level spending from year-to-year with no fear of running out of materials in the Spring or budget to buy them

---

## **Everyone in DAL districts is enjoying the benefits of:**

- ✓ The ability to administer tests remotely (or while socially distanced during face-to-face evaluations, where needed)

# What does it cost?

The best part about the Digital Assessment Library for Canadian Schools is the simple, annual price.

Your district's cost is based on the number of students enrolled in your district.

The grid below will help you determine your district's pricing.

## 2023 District Pricing

District Enrollment Count	Yearly price for DAL
1–9,999	\$3.15/student
10,000–99,999	\$2.10/student
100,000+	\$1.05/student

# The two Qs

## What are they, and how will they make our lives easier?

We've given you a lot of information so far, but it all comes down to the technology behind the K-12 library — Q-interactive and Q-global. While both are helpful, innovative, and revolutionary, they each serve their own purpose. Let's dig in...

### What *is* Q-interactive and what makes it so great?

**Q-interactive®** is an intuitive, portable system that allows you to assess using iPads. Two iPad® devices are connected through technology within the hardware to administer “interactive” assessments such as WISC-V, CELF-5, and KTEA-3 in a 1:1 environment, which can be done while social distancing. ***This means that no internet connection is required for the administration of assessments.***

Because almost everything you need to administer the included tests is stored on the two iPads, the dizzying array of kits and booklets that once took up space in offices, vehicle trunks, and storage rooms is now a thing of the past.

One of the greatest benefits that we've heard from our subscribers is that their assessments are now more targeted than ever. The immediate feedback that Q-interactive provides once a subtest is complete helps deliver a faster and more accurate read on where the student is and how they are progressing at any given time. Q-interactive also allows the adjustment of an individual battery in real time—as the student is taking it!

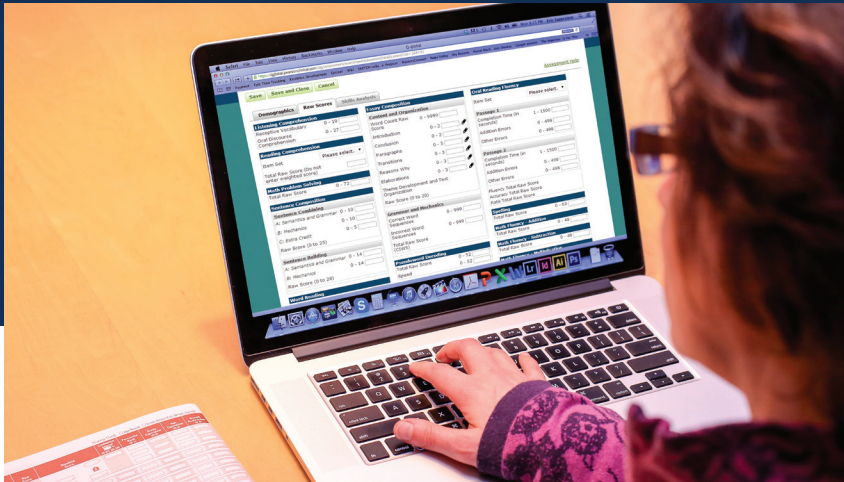

#### ***Easily cleaned and sanitized after every student!***

Instead of having to sanitize individual pages of multiple stimulus books between each student's use, you only need to sanitize the iPad. Not only does that save immeasurable time, but the iPads can be used while socially distanced which further ensures the safety of both your students and your staff!

**Q-interactive®**

**Q-global** is a web-based platform for scoring and reporting as well as the administration of many assessments that are often self-administered and un-proctored, like a questionnaire or rating scale. These measures include assessments like the BASC-3, BYI-2, Vineland-3, and the Brown Executive Functioning/Attention Scales.

A link can be utilized to send to teachers or parents asking them to complete these tests, without having to personally send them home with the student, or by regular mail.

In addition, this platform houses the Resource Library for many digital manuals and stimulus books that can be utilized to administer the test in a one-on-one setting or via telepractice.

**Q-global allows your district to:**

- Generate scores and reports on any internet-connected device, even for assessments that are administered using paper forms
- **Email a secure link to teachers, parents, or caregivers** for convenient completion of assessments on their own device
- **Print select rating scales** when digital administration is not an option
- **Access tests manuals** from school or home

**How does your district learn to use these digital systems?**

With Q-interactive and Q-global, we offer extensive training to ensure your staff has the tools they need to support their students.

- Team support
- Webinars
- Video tutorials
- Resource library
- Help directory
- On-site training\*

*\*May incur additional costs.*

# If ever there was a time for unlimited digital administration — THIS is it!

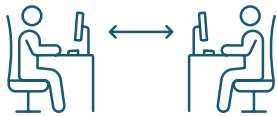

*Extraordinary times call for extraordinary solutions.*

The Digital Assessment Library provides many key benefits schools are looking for.

## Easy cleaning

- Hardware devices can be easily sanitized
- Fewer items to clean after sessions

## Social distancing for face-to-face assessments

- Q-global digital stimulus books can be shared on a second monitor placed a safe distance away from the examiner and used for test administration
- iPad devices using Q-interactive can easily connect at a safe social distance and through personal protective accommodations like plexiglass barriers

## Remote administration

- Many Q-global tests can be administered via remote administration using the examinee's own device
- Digital stimulus books found on Q-global can be used during a telepractice assessment
- Q-interactive can be used, with some accommodations, during a telepractice assessment

For additional information regarding telepractice, please visit [PearsonClinical.ca](https://www.pearsonclinical.ca) for guidance documents AND consult with your professional organizations such as CPA and SAC.

ASSESSMENT  
LIBRARY

# Assessments for every referral

One major benefit of the Digital Assessment Library (DAL) K-12 is having all the tests you need at your fingertips to help you answer any referral question that comes your way. The K-12 library offers assessments in almost every area of eligibility and includes a variety of relevant tests for all ages. Assess for the following specific learning disabilities:

- Basic Reading Skills
- Reading Fluency
- Reading Comprehension
- Math Problem Solving
- Math Calculations
- Written Expression
- Oral Expression
- Listening Comprehension

The assessments included in the DAL also allow you to evaluate for many areas of special education eligibility including autism, emotional disturbance, intellectual disability, other health impaired (ADHD), orthopedic impairment, speech or language impairment, traumatic brain injury, and developmental delay. It's one easy way to meet all your referral needs.

Ask us about our Digital Assessment Library for **Student Mental Health**—a selection of 11 commonly-used assessments by Canadian high schools, colleges, and universities.
