

We hear you PROUD & CLEAR.

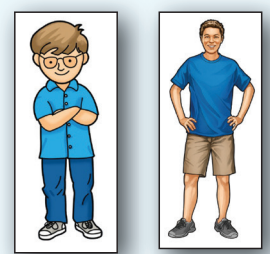

The updated GFTA™-3 and KLPA™-3 introduce features that make it easier than ever to obtain the accurate diagnostic information you need.

- New GFTA-3 norms have been expanded to include ages 2-21 with separate norms tables for males and females
- New print and digital choices for GFTA-3 administration and scoring
- Assesses multiple occurrences of most phonemes
- Administration time for the GFTA-3 Sounds-in-words is still less than 10 minutes!
- Two sets of test stimuli—one appropriate for preschoolers through age 7 and one appropriate for individuals age 8 and above
- Digital scoring simplifies KLPA-3 analysis
- Pair GFTA-3 with the new KLPA-3 to provide robust information about a child's speech sound disorder and plan appropriate intervention
- Q-global GFTA-3 Score Reports:
 - Automatically converts total raw scores to test scaled scores, percentile ranks, age equivalents, and growth scale values
 - Automatically converts sums of scaled scores to composites scores, including the Core Language and numerous index scores
 - Provides an item analysis of performance on individual test

Now with two sets of age appropriate visual stimuli—one for ages 2-7; one for ages 8 and above

Test stimulus:
Look at this boy. What is he wearing on his foot? (shoe)

Print Digital Options

Q-interactive®

Now you can assess using two iPad®s—one for the examiner, and one for the child.

Q-interactive test administration:

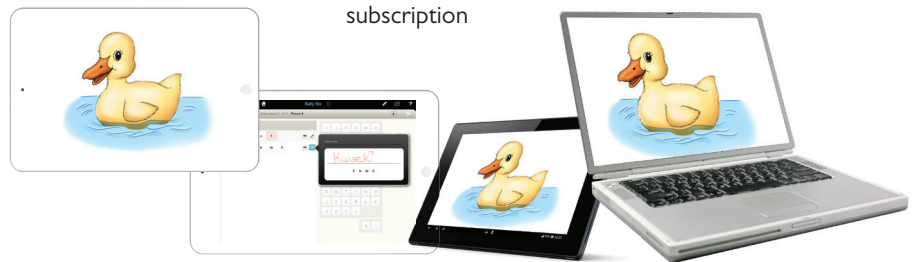

- Guides you through the assessment process
- Provides basal and ceiling rule notifications
- Allows you to take digital notes that you can easily incorporate into reports
- Allows you to score and review scores on-the-fly
- Plays back verbal responses directly from the iPad to confirm scores
- No Internet access required to administer and score test! (access required to download tests)

Q-global™

In addition to manual scoring, these assessments will be available on Q-global™—Pearson's web-based scoring and reporting platform.

- 24/7 secure, web-based access
- Portability: use Q-global to display stimuli and score assessments on mobile devices such as a laptop (MAC or PC) or tablet (android or iOS)
- On-demand, reliable scoring and comprehensive reporting solutions
- Pricing options comprise a pay-per-report basis, or a yearly unlimited-use subscription
