<ul style="list-style-type: none"> • Assesses 5 domains: Cognitive, language, motor, social-emotional and adaptive behaviour • Adaptive behaviour content from the Adaptive Behavior Assessment System -Second Edition (ABAS-II) 	<ul style="list-style-type: none"> • Retains 5 domains: Cognitive, language, motor, social-emotional and adaptive behaviour • Adaptive behaviour content from the Vineland Adaptive Behavior Scales-Third Edition (Vineland-3) • Updated item content based on research and user feedback
Norms and Clinical Studies	
<ul style="list-style-type: none"> • Data collected 2001–2002 	<ul style="list-style-type: none"> • Data collected 2017–2019 • Updated reliability and validity studies
Norms Age Bands	
<ul style="list-style-type: none"> • 10-day age bands up to 5 months • 1-month age bands from 6 months to 35 months • 3-month age bands from 36–42 months 	<ul style="list-style-type: none"> • 10-day age bands up to 6 months • 1-month age bands from 7–42 months

Digital Delivery

- | | |
|--|--|
| <ul style="list-style-type: none">• Software-based scoring and reporting assistant available | <ul style="list-style-type: none">• Web-based administration, scoring, and reporting via Q-global• Social-Emotional and Adaptive Behavior Questionnaire has remote administration option via Q-global |
|--|--|

The key benefits of the digital delivery option:

• Customization

- Adjust start point based on estimated due date if child was premature

• Flexibility

- No need for a separate record form or administration manual
- Supports non-linear and related-items administration

• Ease of use

- Messaging included to guide establishing basal and meeting discontinue rules
- Contains visual representation of administration directions and examples for complex items
- All series items are simultaneously scored based on a single response

• Accuracy

- A review screen helps to ensure all required data is captured prior to submitting the assessment
- Item score suggestions are provided based on when the timer is stopped or the number of correct responses to trials
