Mental Health Support through Telepractice

It is our mission to support you in **screening, assessing, intervening, and monitoring** the wellness of our children. Whether in or out of the classroom, please know you can maintain continuity with digital solutions designed to measure and improve a wide array of behaviours, emotional strengths and weaknesses, and social skills. The following selection of tools work well together and are telepractice-friendly:

Screen

Behavior Assessment System for Children, Third Edition

Beck Youth Inventories—Second Edition

Assess

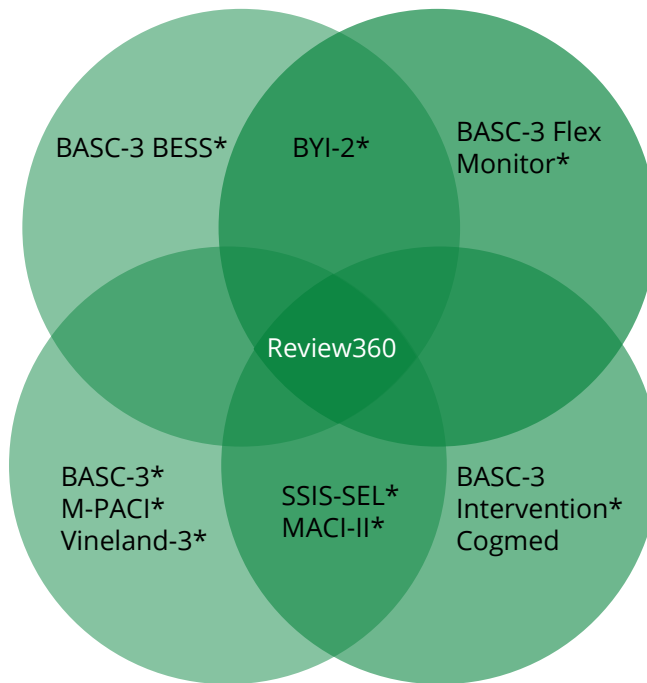

Behavior Assessment System for Children, Third Edition

Millon™ Pre-Adolescent Clinical Inventory

Vineland Adaptive Behavior Scales—Third Edition

Social Skills Intervention System - Social Emotional Learning Edition

Millon Adolescent Clinical Inventory-II

**available on Q-global (HelloQ.ca)*

Monitor

BASC™-3 Flex Monitor

Beck Youth Inventories—Second Edition

Intervene

BASC™-3 Intervention Guide & Materials

Cogmed Working Memory Training Program (Cogmed.ca)

Social Skills Intervention System - Social Emotional Learning Edition

Millon Adolescent Clinical Inventory-II

The benefit of using many of these digital resources is that you can achieve efficient, comprehensive, multi-dimensional reporting along with additional resources and supports that are perfectly suited for determining next steps, evaluating progress over time, and achieving greater student success and well being.

Please visit our [telepractice page](#) and/or contact an Assessment and Technology Consultant for your area—we are pleased to offer support in the fundamental and essential care you provide to others.
