

# Developmental Reading Assessment (DRA) Feature Comparison

**Available September 2019!**

Pearson’s Developmental Reading Assessment® (DRA™) offers educators the tools they need to observe and document student reading abilities and inform instruction. With the third edition, DRA combines decades of teacher acumen with Pearson’s test development strength to provide the premier assessment of good reading behaviours. With engaging fiction and nonfiction stories at every level, streamlined scoring rubrics, improved teacher observation forms, a brand new online platform, and updated field research, the DRA™3 is an assessment that meets the high standards of quality and rigor that reading teachers deserve.

View a side-by-side comparison of the evolution of DRA, and the benefit you’ll receive in the third edition.

# What's new about the DRA3

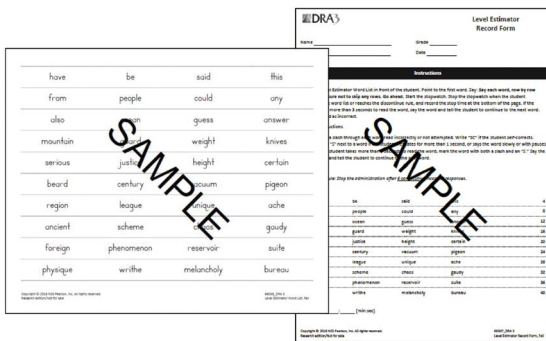

## Assessment and intervention

Your comprehensive DRA3 kit packaged with ALL assessment components — benchmarking, word analysis, progress monitoring, books, teacher resources, and training/implementation—all in one place!

## Expanded book offering

MORE brand new nonfiction and fiction texts means even more stories for each reading level!

## Level estimator

New to DRA! Save time to quickly identify estimated student reading levels before you being testing.

## Online platform

Assess, score, report, and maintain student records all in one place through DRA3's new Online platform!

## Training and implementation

All complimentary on-demand training resources will be available right on the platform! And, to meet the unique needs of your school or district, we offer paid on-site and web-based training options, working directly with our certified DRA3 trainers.
