Quick test.
Powerful results.

This easy-to-administer tool yields a truly valid and reliable achievement assessment using six core subtests from the KTEA–3 Comprehensive Form B.

Get the specific results you require

For grade K through age 25, the Kaufman Test of Educational Achievement—Third Edition (KTEA–3) Brief offers two overall estimates of academic skills: a 3-subtest Brief Achievement composite (BA-3) and an Academic Skills Battery (ASB) composite. The Academic Skills Battery also yields core composites in Reading, Math, and Written Language for evaluating academic strengths and weaknesses.

For children in Pre-K, the Brief offers a Reading composite and the ASB composite.

The KTEA–3 Brief is ideal as a stand-alone screener of basic academic skills. Correlations between the BA-3 and the more comprehensive ASB composite are high (0.9+) at every grade and age level.

Customize the test battery to suit your needs

In about 20 minutes, obtain a BA-3 composite by administering just three subtests:

- Letter and Word Recognition
- Math Computation
- Spelling

If more information is needed for pre-referral, re-testing, or progress monitoring, composites for Reading, Math, and Written Language are available by administering the remaining Brief subtests:

- Reading Comprehension
- Math Concepts and Applications
- Written Expression
Apply the KTEA™–3 Brief results to the Comprehensive Form

When KTEA–3 Brief results indicate that further evaluation is needed, you can incorporate the Brief standard scores when reporting results with the KTEA–3 Comprehensive Form A or Form B. No need to re-administer those subtests! Standard scores from the Brief may be used interchangeably with the subtest and composite standard scores from the Comprehensive Form. Administering the KTEA–3 Comprehensive expands your understanding of achievement by:

- Addressing additional areas of academic achievement, such as fluency in reading, writing, and math
- Identifying specific skill strengths and weaknesses through error analysis
- Conducting analyses for the identification of a specific learning disability

Score it your way

Choose the administration, scoring, and reporting delivery system that works best for you: mobile-friendly Q-global™ web-based platform or paper and pencil.

Pearson’s web-based scoring and reporting platform.

Q-global offers:

- 24/7 secure, web-based access
- Portable use on mobile devices, laptops, and tablets
- On-demand, reliable scoring and comprehensive reporting solutions
