

# It's Time to Take Another Look

## OVERVIEW

A measure of receptive vocabulary for Standard American English

**Qualification Level:** B

**Age Range:** 2:6–90+ years

**Administration Format:**  
Paper-and-pencil or digital (Q-interactive)

**Completion Time:**  
10–15 Minutes

**Scores/Interpretation:**  
Age-based standard scores (M = 100, SD = 15), percentiles, normal curve equivalents (NCEs), stanines, age and grade equivalents, and Growth Scale Value (GSV)

**Scoring Options:**  
Hand-scoring, web-based scoring (Q-global)

### Great news!

Customers already using Q-interactive for PPVT-4 will be given access to PPVT-5 automatically upon release! Not using Q-interactive yet? Visit [HelloQ.ca](https://www.pearson.com/helloq).

## Introducing the Peabody Picture Vocabulary Test, Fifth Edition (PPVT™-5)

### Main Research Goals:

- Update normative data
- Simplify administration process to save time
- Include item analyses that provide assessment to intervention connections
- Maintain the basic format of the PPVT-4 (e.g., two parallel forms, selection of stimulus word from four-picture layout)
- Refine the digital applications that will maintain the basic qualities of the PPVT-4 (e.g., ease of administration and response capture, brief administration time, accurate scoring)
- Refine items (for Form A and Form B) so that stimulus words and picture stimuli may be applied to differing cultures within Canada in the current day

### Uses & Applications:

- Measure receptive vocabulary acquisition
- Monitor progress of receptive vocabulary acquisition using two parallel forms or the Growth Scale Value (GSV)
- Assess receptive vocabulary—as part of a comprehensive language evaluation—across the lifespan
- Screen or assess strengths and weaknesses in the specific domain of semantics (i.e., word knowledge) and general area of language development
- Directly compare receptive and expressive vocabulary when you also administer the EVT™-3
- Move immediately into evidence-based interventions using those embedded directly into and linked into the Q-global® system

## How Can I Buy PPVT-5?

**PPVT-5 will be sold in paper/pencil and digital formats.**

### Digital formats include:

- Digital administration and scoring via the Q-interactive® system
- Digital scoring and reporting via the Q-global system
- Digital stimulus books and manuals via the Q-global system

Pearson

## Introducing the Expressive Vocabulary Test, Third Edition (EVT™-3)

### Main Research Goals:

- Update normative data
- Include item analyses that provide assessment to intervention connections
- Provide digital applications that will maintain the basic qualities of the EVT-2 (e.g., ease of administration and response capture, brief administration time, accurate scoring)
- Refine items (for Form A and Form B) so that the stimulus words and picture stimuli may be applied to differing cultures within Canada in the current day
- Maintain the basic format of the EVT-2 (e.g., two parallel forms, items presented with a stimulus question, items presented with examples of correct and incorrect responses)

### Uses & Applications:

#### Applications of EVT-3:

- Measure expressive vocabulary acquisition

- Directly compare receptive and expressive vocabulary when you also administer the PPVT-5
- Monitor progress of expressive vocabulary acquisition using two parallel forms or the Growth Scale Value (GSV)
- Assess expressive vocabulary—as part of a comprehensive language evaluation—across the lifespan
- Screen or assess strengths and weaknesses in the specific domain of semantics (i.e., word knowledge) and general area of language development
- Move immediately into evidence-based interventions using those embedded directly into and linked into the Q-global system

### How Can I Buy EVT-3?

**EVT-3 will be sold in paper/pencil and digital formats. Digital formats include:**

- Digital administration and scoring via the Q-interactive® system
- Digital scoring and reporting via the Q-global system
- Digital stimulus books and manuals via the Q-global system

## OVERVIEW

A measure of expressive vocabulary and word retrieval for Standard American English

**Qualification Level:** B

**Age Range:** 2:6–90+ years

**Administration Format:** Paper-and-pencil or digital (Q-interactive)

**Completion Time:** 10–15 Minutes

**Scores/Interpretation:**

Age-based standard scores (M = 100, SD = 15), percentiles, normal curve equivalents (NCEs), stanines, age and grade equivalents, and Growth Scale Value (GSV)

**Scoring Options:**

Hand-scoring, web-based scoring (Q-global)

## More About Our Digital Systems

### Q-interactive

Q-interactive is Pearson's web- and iPad®-based system for interactive, seamless assessment, scoring, and reporting. With Q-interactive, you may administer interactive assessments with an intuitive, portable system that uses two iPads connected by Bluetooth. The examinee views test stimuli on one iPad; you use the other iPad to access test administration directions and verbal stimuli, control visual stimuli, and record and score responses. Learn more or sign-up at [HelloQ.ca](http://HelloQ.ca).

### Q-global

Q-global is Pearson's web-based system for accessing digital resources for assessment, scoring, and reporting. PPVT-5 and EVT-3 will have digital stimulus books and a digital manual available for purchase (scoring is purchased separately). You have the option to purchase an unlimited-use one year scoring subscription or individual score reports (quantity discounts are available).
