

# Bayley™-III vs. Bayley™-4:

## *What's changed?*

Administration & Scoring	
<ul style="list-style-type: none"> <li>• Flexible administration with Series Items noted on the record form</li> <li>• Motor response items embedded in the record form</li> </ul>	<ul style="list-style-type: none"> <li>• Flexible administration with Series Items and Related Items identified on the record form and supported via digital administration</li> <li>• Motor response items in a separate Motor Response booklet</li> <li>• Structured caregiver questions to support administration on relevant items</li> </ul>
Content Updates	
<ul style="list-style-type: none"> <li>• Assesses 5 domains: Cognitive, language, motor, social-emotional and adaptive behaviour</li> <li>• Adaptive behaviour content from the Adaptive Behavior Assessment System -Second Edition (ABAS-II)</li> </ul>	<ul style="list-style-type: none"> <li>• Retains 5 domains: Cognitive, language, motor, social-emotional and adaptive behaviour</li> <li>• Adaptive behaviour content from the Vineland Adaptive Behavior Scales-Third Edition (Vineland-3)</li> <li>• Updated item content based on research and user feedback</li> </ul>
Norms and Clinical Studies	
<ul style="list-style-type: none"> <li>• Data collected 2001–2002</li> </ul>	<ul style="list-style-type: none"> <li>• Data collected 2017–2019</li> <li>• Updated reliability and validity studies</li> </ul>
Norms Age Bands	
<ul style="list-style-type: none"> <li>• 10-day age bands up to 5 months</li> <li>• 1-month age bands from 6 months to 35 months</li> <li>• 3-month age bands from 36–42 months</li> </ul>	<ul style="list-style-type: none"> <li>• 10-day age bands up to 6 months</li> <li>• 1-month age bands from 7–42 months</li> </ul>

### Digital Delivery

- |  |  |
|--|--|
| <ul style="list-style-type: none"><li>• Software-based scoring and reporting assistant available</li></ul> | <ul style="list-style-type: none"><li>• Web-based administration, scoring, and reporting via Q-global</li><li>• Social-Emotional and Adaptive Behavior Questionnaire has remote administration option via Q-global</li></ul> |
|--|--|

## The key benefits of the digital delivery option:

### • Customization

- Adjust start point based on estimated due date if child was premature

### • Flexibility

- No need for a separate record form or administration manual
- Supports non-linear and related-items administration

### • Ease of use

- Messaging included to guide establishing basal and meeting discontinue rules
- Contains visual representation of administration directions and examples for complex items
- All series items are simultaneously scored based on a single response

### • Accuracy

- A review screen helps to ensure all required data is captured prior to submitting the assessment
- Item score suggestions are provided based on when the timer is stopped or the number of correct responses to trials
