Review360®
Implementation Path

Introduction

Get acquainted with the Review360 implementation process and the Review360 Implementation Team:

- Review district goals and objectives and the selected solution and services
- Develop roles and responsibilities and project timelines

Implementation

In the next step, your dedicated Implementation Specialist will collect and prioritize key data to determine:

- District structure and the schools to be included in the implementation
- User groups and their roles and responsibilities within the system
- Technology parameters and interface requirements

Configuration

The focus is now on configuring Review360 to align with your specific needs, so the Implementation Specialist will:

- Identify the structure of existing behavioural services
- Establish school and classroom rules
- Develop objectives, goals, and scoring parameters
- Identify district specific interventions

Training

Now that your Review360 configuration is complete, it's time to train your users:

- Sessions are approximately 3-4 hours
- Maximum of 25 participants per session
- All training materials are provided

Collaboration

Your success is our primary objective. Our relationship continues long after training with:

- School visits to assist users and reinforce the implementation
- Mid-year and end of year meetings to evaluate, modify, and support the implementation

Dependable

The Review360 team is your resource for success with the skills, expertise, and attention necessary to help you achieve your goals and objectives throughout the course of our relationship.

Caring

The Review360 Implementation team is comprised of esteemed psychologists, behaviour experts, and former educators and administrators who serve as your partner in navigating the path to better student behaviour

---

Engaged

Our hands-on, guided approach to implementing Review360 has been carefully designed to help your district realize the best possible outcomes for your schools, staff, and students.
