

# Administrator Perspective

The configurable dashboard provides insight into your school's climate with real-time, actionable data.

## Review360 Administrator Dashboard

Quickly and easily configure the dashboard to meet your needs by selecting the widgets most helpful to you, add saved and configure reports for real-time data analysis, and see alerts for pending actions.

### Universal Screening

**Administrators can:**

Oversee the universal screening process with activities such as: scheduling the screener, monitoring completion with email alert reminders, and reviewing the results to take appropriate action for students who need additional support.

### Incident Reporting and Analysis

**Administrators can:**

View incident reports by behavior, type, student, location, time of day, etc. to monitor student behaviour and assess the need to additional staff coverage in location hot-spots, skill training for students, and professional development for teachers. You can assign and monitor consequences for the most problematic behaviours.

### Professional Development

**Administrators can:**

Assign and complete online, on-demand, research-based professional development. Quickly monitor user and course status.

### Progress Monitoring

**Administrators can:**

Review student progress on behavioural objectives with aggregate as well as individual student reports and charts.

# Teacher Perspective

## Review360 Teacher Dashboard

Review360<sup>®</sup> is a comprehensive web-based system that provides educators with the data-driven training, recommendations, and resources they need to help improve student wellness, behaviour and academic success.

### Universal Screening

Teachers can:

- Participate in universal screening for groups and individual students
- Review screening results for groups and individual students
- Take appropriate action

### Incident Reporting and Analysis

Teachers can:

- Report office referrals and other incidents
- View reports, charts, and graphs by student, behaviour, location, etc.

### Progress Monitoring

Teachers can:

- Access and utilize a comprehensive progress monitoring system
- Create individual student behavioural plans
- Input progress monitoring data for behavioral objectives as well as targeted behaviours
- Receive system-recommended, evidence-based interventions and strategies with implementation steps and videos
- Generate and share reports with stakeholders

### Professional Development

Teachers can:

- Access online, research-based professional development anytime
- Complete assigned courses online
- Sign up for other available courses
