[1.0 / RE1 / QG1]

SUMMARY

The Raven's 2 is a nonverbal assessment of general cognitive ability, including the ability to formulate new concepts when faced with novel information, extract meaning out of confusion or ambiguity, and think clearly about complex situation and events. Contemporary cognitive assessment theory suggests that solving progressive matrices involves cognitive functions such as perception and attention to visual detail, inductive reasoning, classification and spatial ability, simultaneous processing, fluid intelligence, broad visual intelligence, and working memory.

STANDARD SCORE PROFILE

SCORE SUMMARY

Total Raw Score*	-
Ability Score	516
Standard Score	99
Percentile Rank	47
90% Confidence Interval	88 - 110
NCE	49
Stanine	5
