

MACI-II ONLINE INDEPENDENT STUDY

Presented by: Gloria Maccow, Ph.D. and Robert Francis Tringone, Ph.D.

On-demand Workshop

Sponsored by NCS Pearson, Inc.

Course Description

This fee-based, online, independent study curriculum consists of three modules and is approximately 3.5 hours long, and is available for one year. Narrated by the test author, Dr. Robert Tringone, this intermediate-level curriculum includes an overview of the theoretical foundation, development, and standardization of the MACI-II and detailed lessons on administration, scoring, and interpretation of the assessment.

Learner Outcomes

As a result of this activity, the participants will be able to:

1. Describe the role of assessment in targeted clinical mental health treatment.
2. Discuss the MACI-II scales and their clinical applications.
3. Identify key components of Millon's Evolutionary Theory.
4. Outline basic interpretive sequence for MACI-II.
5. Use scores on MACI-II Personality Patterns scales to identify treatment goals.
6. Discuss how MACI-II scales are used for integrative assessment.

Time-ordered Agenda

1 hour 17 minutes	Part 1: Overview and Theoretical Foundation, Administration, Scoring, and Reporting
1 hour 39 minutes	Part 2: Scores and Interpretation
29 minutes	Part 3: Development and Standardization

About the Presenters

Gloria Maccow, Ph.D., is licensed as a Health Services Provider - Psychologist in North Carolina and has been a Pearson employee since 2006. She provides training on the administration, scoring, and interpretation of assessment instruments and consults with colleagues and customers about clinical assessments. Over the course of her career as an educator, psychologist, and clinician, Dr. Maccow has conducted research on assessment methods and instruments and early intervention. She is a member of the National Association of School Psychologists.

Robert Tringone, PhD, received his doctorate at the University of Miami where he studied under Dr. Theodore Millon. Through their joint research ventures, Dr. Tringone served as a Personality Disorders Adviser to the DSM-IV Axis II Work Group.

Since 1992, Dr. Tringone has been a Pearson-certified Workshop Leader, focusing on adolescent assessment with the MACI and integrating results from this instrument with several projective techniques. He is co-author of the M-PACI, a self-report instrument for 9-12-year-olds, and has authored or co-authored numerous book chapters on the MACI and M-PACI tests.

A licensed psychologist in the state of New York, Dr. Tringone works at St. John's University in the Department of Wellness on the Queens, New York campus, and maintains a private practice for children, adolescents and adults. He serves as the Coordinator of Inventory Training for the Institute for the Advanced Studies in Personology and Psychopathology.

Disclosure

Financial

Gloria Maccow is employed by Pearson Clinical Assessment.

Robert Frances Tringone is the lead active author for the MACI-II and receives royalties based on sales of the test.

Non-financial disclosure:

There are no relevant non-financial relationships to disclose.

The Pearson Assessment Division, the sponsor of this webinar, develops and distributes assessments and intervention tools for speech-language pathologists, occupational therapists, and psychologists. Course information will only include information that pertains to the effective and appropriate use and interpretation of the Millon Adolescent Clinical Inventory-II IMACI-II published by Pearson Clinical Assessment. No other assessments will be discussed during this presentation.
