

## D-KEFS Advanced Overview Live Webinar

Presented by: Alexander Quiros, PhD, MBA

Date: Friday, May 1, 2026

Time: 12:00 p.m. – 3:45 p.m. ET

Delivery method: Live webinar

Instructional level: Intermediate

Sponsored by: NCS Pearson, Inc.

### Course Description

Join us for a half-day training session that provides an in-depth overview of the Delis-Kaplan Executive Function System (D-KEFS) Advanced. This session covers the theoretical foundations, practical applications, and basic interpretation of five key tests for school-age populations: Trail Making Test, Verbal Fluency Test, Social Sorting Test, Color-Word Interference Test, and Tower Test. Participants will gain hands-on experience with the digital platform and learn how to administer, score, and describe results effectively. Additionally, we will discuss how these assessments fit within a broader executive functions evaluation framework.

### Learner Outcomes

*After completing this learning track, the participants will be able to:*

1. Describe the components of the D-KEFS
2. List the D-KEFS subtests and composites
3. Discuss the step-by-step approach for interpretation of D-KEFS results

### Time-ordered Agenda

5 minutes	Case study introduction
35 minutes	History and Foundation
10 minutes	Subtest administration & scoring
10 minutes	General Scoring and Reporting Guidelines
150 minutes	Interpretation <ul style="list-style-type: none"><li>• Trail Making test</li><li>• Verbal Fluency Test</li><li>• Color-Word Interference Test</li><li>• Tower Test</li><li>• Social Sort Test</li><li>• Q&amp;A</li></ul>

### About the Presenter

A graduate of Texas A&M University, Dr. Alexander Quiros specialized in clinical assessment with an emphasis on forensic evaluations and bilingual assessments/ psychotherapy with all age groups before earning his PhD in Clinical Psychology. For two years he worked as a staff psychologist at the San Antonio State Hospital, a psychiatric hospital treating and assessing severe mental illness, before accepting a position as clinical director of a psychosocial rehabilitation clinic at Audie L. Murphy VA Hospital in San Antonio, TX. Throughout his career, he also taught graduate and undergraduate level courses at Texas A&M University, St. Mary's University, Our Lady of the Lake University, and University of Phoenix. He completed his MBA in Corporate Finance while working as a Healthcare Assessment Consultant for Pearson where he trained and provided consultation services globally to professionals who use Pearson assessment tools. Currently, Dr. Quiros is a Clinical Scientist at WCG-VeraSci where he reviews data, provides scientific consultations to investigators, and assists with the translation and cultural adaptation of measures. Most recently, he has started to pursue a certification in Data Analysis. Why? Because, as he likes to say, "I'm Always Learning."

### Disclosure

#### Financial

Alexander Quiros is an employee of Pearson Clinical Assessment.

#### Nonfinancial disclosure:

There are no relevant nonfinancial relationships to disclose.

NCS Pearson, Inc., the sponsor of this learning track, develops and distributes assessments and intervention tools for speech-language pathologists, occupational therapists, and psychologists. This offering will include information that pertains to the effective and appropriate use of the Delis-Kaplan Executive Function System Advanced (D-KEFS™ Advanced) published by NCS Pearson. No other assessments will be discussed during this presentation.
